

I build **agents that work while I sleep.** Python for the spine, LLMs for the brain. I don't really write software anymore — I delegate to it.

SHIPPED · RUNNING IN PRODUCTION

Project Humanizer

LIVE

Took text that screams "a robot wrote this" and taught it to sound like a person. FastAPI wrapping Groq Llama 3 + spaCy. Validates, batches, returns clean JSON. No babysitting.

FastAPI

Groq · Llama 3

spaCy

LinkedIn Agent

CRON

Posts to LinkedIn without me. A GitHub Actions cron wakes it, it reads its own history so it never repeats, writes, ships. Untouched for weeks. Still going.

Python

EXPERIENCE

Technical Support & Data Associate

2023 – NOW

Profusion Tech — fixing other people's machines to pay for mine.

Content Moderator

2022

Yodha — learned what bad data does at scale.

WHAT I'M GOOD AT

LLM & Agents

Groq, Llama 3, prompts that behave, agents that decide on their own.

Agentic Coding

Claude + Cursor. One sentence to a merged PR.

Backend

FastAPI, REST, state that doesn't lie. Python, SQL, Bash.

Security

Google Cybersecurity certified. Read a packet, smell the risk. Nmap, Wireshark, Kali.

EDUCATION

BCA — Final Semester

2022 – NOW

Madan Bhandari Memorial College, Kathmandu.

+2 Science · Computer Science

2020 – 22

Pentagon International College.

CERTIFICATIONS

Google Cybersecurity · Python for Everybody · Databases & SQL for Data Science · Intro to Cybersecurity via Coursera
